

AISIK SAHA

FULL STACK WEB DEVELOPER

H/J12 Baguihati, Kolkata-59 | saha.rik2006@gmail.com | www.github.com/siruyu

Currently in 2nd year of my Bachelor's degree in Computer Science . As a developer, I operate with a clear preference for efficiency, speed, and deep technical control. My projects range from high-level cinematic automation to practical, business-oriented applications like SaaS solutions for retail .

AREA OF EXPERTISE

Prototyping Tools	Interaction Design	Web Development
User Research	Visual Design	UI/UX

PROJECTS :

Ossuary : A digital graveyard for “failed” github repos.

Tech Stack : This tech stack utilizes Next.js 14 (App Router), TypeScript, SQLite, Prisma ORM, NextAuth.js 5.x, Tailwind CSS, Lucide React, and Octokit.

Ossuary is a platform for preserving and discovering abandoned/dead software projects. Instead of deleting failed repos or letting them disappear into the void, users can "bury" them in a communal mausoleum — preserving them as learning artifacts, warnings, or digital monuments.

Access project via : <https://ossuary.vercel.app>

Musica : Cloud music streaming platform UI/UX

- Designed and prototyped a cloud music streaming platform .
- Coordinated testing and validation, ensuring compliance with industry standards.

Access Repo at : <https://github.com/siruyu/Musica>
